## **Introduction to the Collection**

This is the Administrative Record for the BFI Sanitary Landfill Superfund site, Rockingham, VT Operable Unit 1 Record of Decision (ROD). This Administrative Record was established on September 21, 1994 and subsequently released on CD-ROM in May 2009. The ROD Administrative Record includes all documents in the Current Action Administrative Record compiled June 28, 1994. A previous Administrative Record was prepared for the public comment on the Landfill Cap during June - September 1993. The file contains site-specific documents and a list of guidance documents used by EPA staff in selecting a response action at the site.

The Administrative Record includes, by reference, all documents included in the September 13, 1993 Administrative Record for this NPL site. In addition, the design documents for the Non-Time Critical Removal Action (landfill cap) are available at the Rockingham Free Public Library and the EPA New England OSRR Records and Information Center.

The Administrative Record is available for review at:

An Administrative Record is required by the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) as amended by the Superfund Amendments and Reauthorization Act (SARA)

Please note that the compact disc(s) (CD-ROM) containing this Administrative Record may include index data and other metadata (hereinafter collectively referred to as metadata) to allow

the user to conduct index searches and key word searches across all the files contained on the CD-ROM. All the information that appears in the metadata, including any dates associated with creation of the indexing data, is not part of the Administrative Record for the Site under CERCLA and shall not be construed as relevant to the documents that comprise the Administrative Record. These metadata are provided as a convenience for the user and are not part of the Administrative Record.

Questions about this Administrative Record should be directed to the EPA New England Site Manager.
